

**Learning Intentions**

What will I be learning today?

How will I know I am learning?

**Success Criteria**

I KNOW I AM SUCCESSFUL WHEN I CAN.

Why am I learning this?

**Relevance**

This is important to know because...

**Content:** Examine the arrangement of molecules that make up Deoxyribonucleic Acid.

**Language:** Identify key details from a text.

**Social:** Respond thoughtfully to diverse perspectives.

- State the key findings of the scientists who figured out the structure of DNA.
- Identify patterns to describe the structure of DNA.

- It helps me understand the history of science.
- I can begin to see why diversity in science is important.
- This is about molecules in my own body!
