

Alaska Teacher Evaluation System

**Beginning no later than July 1, 2015, districts are required to adopt evaluation procedures that incorporate student learning data into the evaluation process.

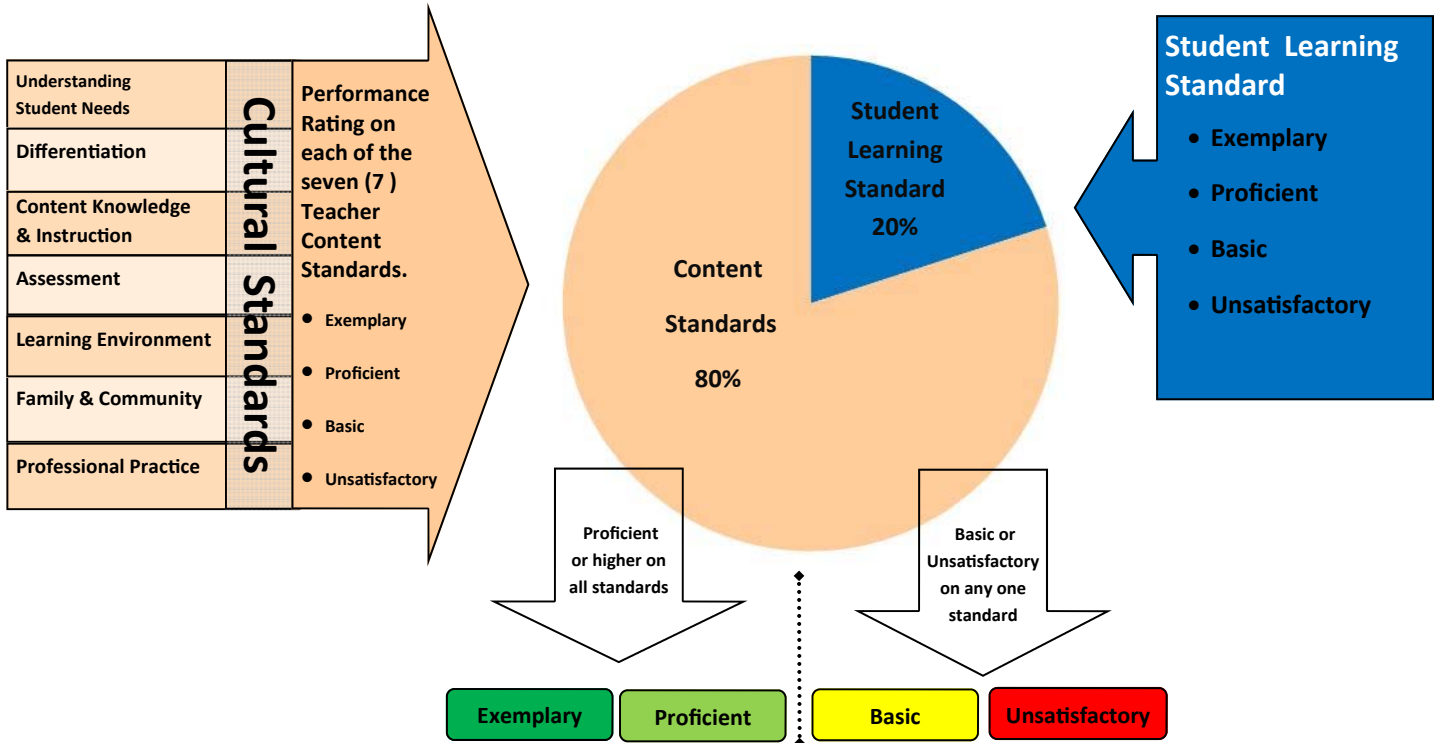

Alaska Teacher Evaluation Overall Rating

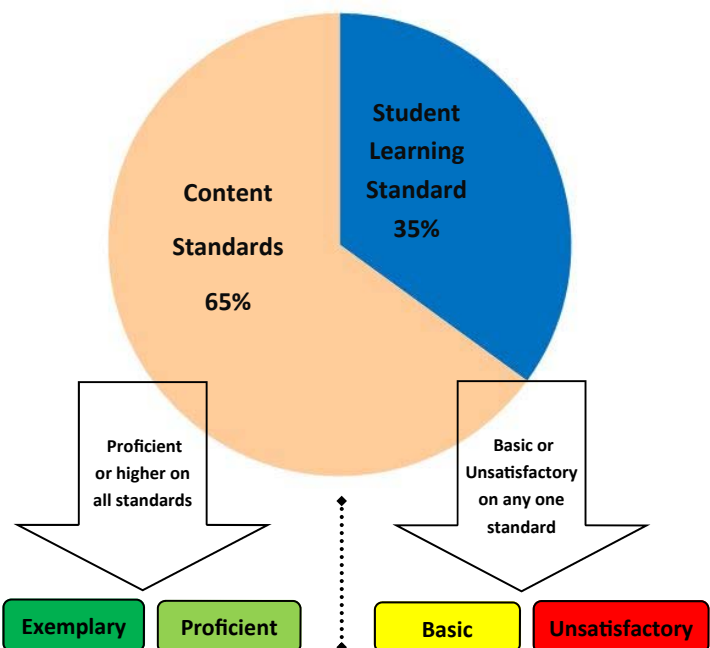

Districts will use the information from the components of the district’s evaluation systems to calculate the overall rating of each educator. Beginning in July, 2016, each district must report to the Department of Education & Early Development (EED) the number and percentage of educators at each of the overall ratings. Information provided to the EED by the districts will only be made public at levels that maintain individual confidentiality.
